Tina Evenson

Paramedic
Woodson County EMS
New Strawn, KS
End of Service: 05/28/2022
Circumstances: Mental Illness

Tina's Contributions in Life:

Tina became a paramedic in 1997 and started her career with Sedgwick County EMS. She later moved on to become an RN and worked at several hospitals. She then was hired at Woodson County EMS and was their first full-time paramedic. Tina had a ridiculous number of jokes, a thirst for knowledge and a desire to further her education. She spent massive amounts of time fully researching diseases no one had heard of so she could share it with confidence. If there was a question asked of educational value and she was not positive of the answer, the laptop would come out and the research would begin. She was set to graduate with her FNP in December 2022.
