## **KyMBER's Contributions in Life:**

KyMBER was very passionate about loving her family, her husband who was the love of her life, friends, sisters and brothers. She was a lover of animals from the age of 9, and it only grew with age/time. KyMBER loved her job with Acadian as an EMR. She wanted to help everyone, selfless, determined to put her best foot forward no matter the task at hand. KyMBER was very driven to give her all every time. She wore a smile that lit up a room, never met a stranger, and was one of the sweetest, most genuine souls you would ever meet. KyMBER would have done anything to put a smile on your face or fill the air with laughter. She was a peacemaker and a shoulder to cry on for many. KyMBER loved life to the fullest.
