Tami's Contributions in Life:

In 1986, she took an EMT class and developed a love for what would become her life-long career in emergency medical services. She was instrumental in educating EMTs across the state of ND. Tami loved crafting, working in her yard, spending time with her friends, family, grandchildren and her beloved dog Cooper. Everyone gravitated towards her because of her laugh, hugs, and zest for life. She was happiest when she was on 2 wheels, on her hot pink Harley Davidson.
