

# David Austin

EMT

EHT EMS

Ocean City, NJ

End of Service: 10/01/2024

Age: 52

Circumstances: Cardiac  
Event

## David's Contributions in Life:

Dave worked in EMS for 30 years first as an EMT and then as a paramedic. During his career he touched the lives of many people ranging from coworkers to family members of the patients he tended to. His biggest accomplishment was just before his death where he saved the life of a young girl who sustained multiple injuries and the loss of her leg after being run over by a vehicle. Dave was very passionate about EMS and was always willing to help others become better providers. He is survived by his daughter, two sisters and his brother who was also a co-worker.
